Assessments

While the applicant clears their PTE test, IAC Future will complete the post-assessment, which includes:

- Finalizing the occupation with ANZSCO, according to the applicant qualification and work experience.
- Defining the Australian Assessing Authority.
- Defining the job descriptions according to the requirements of the defined Assessing Authority.
- Preparation of the Assessing Authority file

EOI Expression of Interest

Once you have successfully completed the first two steps, which involve obtaining the desired PTE score and receiving positive assessments, the Immigration team at IAC Future will proceed to file your Expression of Interest (EOI) to all available states in Australia.

The EOI submission involves providing your relevant information, such as skills, work experience, qualifications, and other necessary details, to express your interest in migrating to Australia. Our team will ensure that your EOI is submitted to all the states in Australia where you are eligible to apply for skilled migration.

Submitting your EOI to multiple states increases your chances of receiving an invitation to apply for a visa. Each state has its own specific requirements and priorities when selecting skilled migrants. By filing your EOI to multiple states, we aim to maximize your opportunities and increase the likelihood of receiving an invitation to apply for a visa.

Once the applicant is nominated by the Australian Government and receives an invitation to apply for the visa, there is a 99.9 percent chance of visa approval.

Visa Application

Once we received an invitation from Australia, we will apply your Skilled Migration Visa to Australian Immigration.

Once the main applicant's visa is approved, they have the privilege of bringing their dependents, including their spouse and children, along with them.
